

March 6, 2017
Greenstone Community Services District (CSD)
Attn: Rod Rozman

On behalf of AmeriGas Propane, I am pleased to present our proposal for continued propane service to the residents of the Greenstone Country CSD.

The following is a detailed outline of our updated offer:

1. **Price of Propane:** Fuel pricing for members of the Greenstone Country CSD will follow a tiered pricing plan. The tier pricing level will be determined based upon the total number of residents serviced by AmeriGas Propane. As of this notice, AmeriGas Propane currently services 106 residents throughout the Greenstone Country community.

The following is a breakdown of the tier pricing levels:

1. 1-149 Customers = \$0.55 Fixed Tier Margin
2. 150+ Customers = \$0.50 Fixed Tier Margin

Delivered fuel pricing will be calculated using the following formula:

Terminal Refinery Cost + "Fixed Tier Margin" = Greenstone Delivered Price

The **Terminal Refinery Cost** will fluctuate throughout the year, but the cost will be verified via email. In the event that refinery pricing is altered, an email is issued directly to AmeriGas. This email will be forwarded to the General Manager of the Greenstone Country Community Services District:

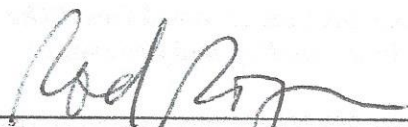

George Amo: greenstoncomm@att.net

2. Hazmat & Safety Compliance Fee (\$10.99) and Fuel Recovery Fee (\$4.72) will be waived for all Greenstone Country CSD members.
3. AmeriGas Propane will charge \$1.00 per tank per year for rental fees. **The size is restricted by clearances set forth by the local building and fire codes.**
4. AmeriGas Propane agrees to complete the exchange of equipment at no cost to the customer provided that the existing installation meets all applicable codes.
5. AmeriGas Propane will transfer any fuel from the existing tank to the new tank at no charge. Subject to verification of transfer valves present on tank.

This proposal is only valid for 30 days from the above date.

6. AmeriGas Propane will complete a full Safety Check on all gas lines and appliances at the time of the tank installation.
7. AmeriGas Propane will extend a 50% discount on service technician labor.
8. Parts & Fittings will be discounted to 15% over our purchased cost.
9. AmeriGas Propane offers a "Friends and Family" referral program. AmeriGas will provide a **\$100.00** referral credit for each new residential referral and a **\$150.00** credit for each new business referral that switches their service to AmeriGas from another supplier. If any member of the Greenstone Country CSD refers new business to AmeriGas, we will immediately apply the respective credit to the account. **Referring another Greenstone Country CSD member will not activate a referral credit.**
10. AmeriGas Propane offers a "Friends & Family" pricing program. This pricing will be calculated using the formula, Terminal Refinery Cost + \$0.80 fixed margin. **Call your AmeriGas rep noted below for additional details.**
11. AmeriGas provides 24/7/365 emergency technical and delivery service through our Emergency Call Center (ECC). The ECC is staffed with AmeriGas employees trained to determine the nature of the call and to contact the appropriate personnel immediately. If you have a need outside of normal business hours, the ECC can be reached at 800-263-7442.
12. Greenstone Country CSD residents are defined as any resident living within the CSD boundary area.
13. Contract term will be valid for a minimum of FIVE (5) years from the date it is executed by both parties.
